### **COLOUR MATCHING and SIZES**

Owing to photochromatic anomalies caused by a combination of certain dyes and materials, especially in man-made fibres, it is sometimes impossible to record on camera the exact colour of materials as perceived by the human eye. When processing images, the Catherine Joll Photography will endeavour to achieve a pleasing overall colour balance based on natural flesh tones. It is understood that some colours may not remain consistent throughout a set of photographs owing to variations in lighting conditions. It is also understood that all photographic printing is undertaken within the technical limitations of the process and that colour may not be identical over the whole range within a subject. The colour balance of prints made at different times or in varying sizes may also be variable. Due to the limitations of computer monitors it is understood that images may appear differently according to the specification of each monitor and that prints will not match images rendered on any particular computer monitor. Where images are made available for use on a DVD player reasonable steps are taken to ensure compatibility, but DVD discs may not play on all DVD players, particularly older models. All print and presentation sizes quoted are approximate and subject to the discretion of the photographers.

The copyright in all photographs created by Catherine Joll Photography shall remain the property of Catherine Joll Photography in accordance with the Copyright, Design and Patents Act 1988. The Client(s) shall, however, be permitted to reproduce photographs created by Catherine Joll Photography for their own personal use.
